THE GREAT CHALLENGE

EXPO CONFERENCE - 2^A EDIZIONE

micromegas

15-16-17-18 OTTOBRE 2024
VILLA ERBA CERNOBBIO (CO)

THE GREAT CHALLENGE

15-18 OCTOBER

The International Conference will take place **from 15 to 18 October 2024** at the Villa Erba International Exhibition and Congress Centre in Cernobbio, on Lake Como. Created to contribute to the debate on the digital policies of today and tomorrow, ComoLake2024 this year presents a meeting point for institutions, companies and universities involved and interested in the new paradigms of economic growth in Italy and the Euro-Mediterranean area as a whole in a multipolar global context.

Four days of debate are planned, divided into **7 themed** topics, with over 160 speakers from all over the world, representing Governments, Parliaments, European Commission, Regulatory Authorities, International Bodies and Agencies, Companies, Universities, Experts, Consumers and Media.

VILLA ERBA

Largo Luchino Visconti, 4
CERNOBBIO (CO)

ComoLake2024 will come to life at **Villa Erba**, the International Exhibition and Congress Centre. Its established reputation for excellence, state-of-the-art infrastructure and atmosphere rich in art and history, with the spectacular backdrop of Lake Como, make Villa Erba a top-tier location for promoting business and knowledge sharing. The spaces within the Villa have been designed with a dynamic style, offering an innate sense of elegance and the support of innovative services to meet the specific needs of the event.

Villa Erba houses a modern **Congress Centre**, with two exhibition areas at its sides: the Lario Pavilion and the Cernobbio Pavilion. This complex offers a versatile space for events and conferences in an evocative and historical setting.

THEATRICAL PERFORMANCE

TEATRO SOCIALE
DI COMO

15 OCTOBER
At 8:30 PM

Gli Illusionisti della Danza is the company that will perform on 15 October at the Teatro Sociale di Como, one of the oldest and most suggestive theatres in Northern Italy. From 19:00 a cocktail dinner will welcome guests while waiting for the show to begin.

Illusionistheatre is the name of the performance that will be held at 8.30 p.m. It combines dance, technique and maximum innovation with the support of special video effects, projections on original backdrops, light effects and highly technological directorial solutions designed for choreographic expression.

The Teatro Sociale di Como is the perfect setting to host an **evocative** and remarkable performance: the dancers alternate on stage appearing and disappearing and the audience will be pleasantly projected into a rarefied atmosphere of magical optical illusions.

GALA DINNER

16 OCTOBER

At 9:00 PM

This year at "ComoLake 2024" experts from all over the world will come together to discuss the new paradigms of digital policies and innovation at global level and in the Euro-Mediterranean area, in a confrontational context, whose guest of honour will be Africa.

Among the numerous side events planned, the first Gala Evening, **Tech4Africa**, dedicated to Africa and international cooperation in its favour, with guests from institutions and companies, will take place on the evening of **16 October**.

GALA DINNER

17 OCTOBER
At 09:00 PM

The second Gala Evening will be held on the evening of **17 October**, during which the 'Comolake Awards' will be presented.

Both Gala Dinners will be hosted in the **Plenary** Hall of the Villa Erba Congress Centre.

ITALIAN BIODIVERSITY KEEPERS

15-18 OCTOBER
Regina Pavilion

Powered by

The logo for Micromegas, featuring a stylized 'm' with three dots above it, followed by the word 'micromegas' in a lowercase, sans-serif font.

As part of the environmental diplomacy initiatives aimed at promoting Italy's commitment to **environmental protection**, the **Carabinieri Corps**, through the Comando Unità Forestali, Ambientali e Agroalimentari Carabinieri (CUFAA), is organising an exhibition on the activities of this Command to be held in Cernobbio (CO) from 15 to 18 October 2024 at Villa Erba - International Exhibition and Congress Centre, under the coordination of the Permanent Representation of Italy to the United Nations, in collaboration with the Italian Air Force, Leonardo and Telespazio.

The exhibition recounts the Carabinieri's centuries-long commitment to the protection and conservation of nature and highlights, in particular, the **CUFAA's** commitment to the protection and conservation of biodiversity.

Ania

Associazione Nazionale
fra le Imprese Assicuratrici

ANIA, chaired since 2015 by Maria Bianca Farina, is a voluntary nonprofit association: its main purpose-recognized by its Statute-is to develop and spread the culture of safety and prevention in our country, so that both people and companies and society as a whole can be further and better protected. It is an association of 129 Companies representing about 85 percent of the insurance market in terms of premiums. Founded in 1944, the National Association among Insurance Companies groups those who have always managed and covered the most diverse risks. It represents the members and the Italian insurance market in dealings with the key political and administrative institutions, including the government and Parliament, trade unions and other social forces. It also studies and collaborates in solving technical, economic, financial, administrative, fiscal, social, legal and legislative issues concerning the insurance industry. It has a permanent Forum with consumers and a Foundation. The latter aims to foster information on risk prevention, promote safety and security for citizens and businesses. ANIA has for years been at the forefront of issues related to sustainability in all its meanings: environmental, economic and social. On this front, the Association is engaged daily with information and promotion initiatives and projects on traditional and digital communication channels and through the organization of events.

DELL Technologies

Dell Technologies (NYSE: DELL) creates technologies that drive human progress, empowering businesses and individuals to build their digital future. The company plays a pivotal role in reshaping the digital landscape – offering solutions across cloud infrastructure, storage, and computing, from workstations to multicloud solutions, and an innovative GenAI infrastructure portfolio. Additionally, Dell is committed to social impact and sustainability initiatives.

The company continuously innovates in key IT sectors, such as edge computing, data management, cyber resilience, and software solutions across various industries. It supports a broad customer set – 98% of which are Fortune 500 companies – operating in business, public administration, and consumer sectors, through a robust ecosystem of partners, distributors, system integrators, and service providers.

Dell's extensive portfolio is driven by ongoing investment in research and development. Over the past three years, the company has invested more than \$8.2 billion in R&D and holds over 30,900 patents and patent applications. In FY2024, Dell reported \$88.4 billion in revenue and invested \$2.8 billion in R&D.

Recognized for its innovation, Dell was named one of America's Most Innovative Companies by Fortune and one of the World's Most Ethical Companies by the Ethisphere Institute in FY2024. Fast Company also listed Dell as a World Changing Company for 2023.

We are DXC Technology, a global leader in IT services, included in the Fortune 500. With over 6,000 customers and \$13.7B in FY24 revenue, we are the trusted technology partner for our customers' success.

We are innovation-driven, offering highly innovative services to optimise business processes through digitisation.

In Italy, we are an integral part of the business landscape, with a turnover of around €500M in FY23 and +3,000 employees spread across offices in Milan, Rome and Bari. With long-standing partnerships in both the public and private sectors, DXC is a benchmark for technological excellence.

Our offer is diversified and structured. Our services include: Consulting & Engineering, Insurance Software & BPS, Security, Cloud Infrastructure & ITO and Modern Workplace.

'DXC' is much more than an acronym: it stands for "Delivering eXcellence to our Customers and Colleagues", and embodies our promise to deliver extraordinary service.

Our values are at the heart of what we do: we keep our promises, work as a team, support our communities and preserve our environment. We care for each other, foster a culture of inclusion and belonging, and always act with integrity and responsibility.

Enel is a multinational energy company and a leading integrated operator in the global energy and renewables markets. Globally, it is the largest private operator of renewables, the largest operator of electricity distribution networks by number of customers served and the largest retail operator by number of customers. The Group is the largest European utility by ordinary EBITDA[1]. Enel is present in 28 countries worldwide and produces energy with a total capacity of more than 88 GW. Enel Grids, the Group's global business line dedicated to managing electricity distribution services worldwide, supplies electricity through a network of 1.9 million kilometres to 69 million end users. Enel Green Power, which manages renewables within the Enel Group, has a total capacity of around 64 GW with a generation mix that includes wind, solar, geothermal, hydroelectric and storage plants in Europe, the Americas, Africa, Asia and Oceania. Enel X Global Retail is the Enel Group's business line dedicated to customers around the world with the aim of providing them with products and services that are efficiently tailored to their energy needs, encouraging them towards a more conscious and sustainable use of energy. It provides electricity and integrated energy services to about 58 million customers globally, offering flexibility services aggregating 99 GW, operating about 3 million lighting points, and owning 27,300 public charging points for electric mobility.

[1] Enel's leadership in the different categories is defined by comparing with its competitors' FY2023 figures. Fully publicly owned operators are not included.

Meta builds technologies that help people connect with each other, find communities and grow businesses. When Facebook was launched in 2004, it changed the way people connect. Today, more than 3.2 billion people use apps like Messenger, Instagram and WhatsApp every day. Meta is looking beyond 2D screens to help build the next evolution of social technology. With innovations in artificial intelligence, AR, VR, mixed reality and the metaverse, we will continue to discover ever more immersive ways to connect, create, explore and realise new experiences. The new technologies that Meta is building will allow us to communicate, connect and work without losing touch with the reality around us. The Meta Quest 3 mixed reality viewer and the new Ray-Ban Meta smart glasses are examples of how people can already experience these technologies. Meta has been a pioneer in the field of artificial intelligence for more than a decade, having launched more than 1,000 AI models, libraries and datasets, including the latest version of the Llama 3 large language model, which has been made publicly available with an open-source approach to facilitate use by businesses, developers and researchers and promote innovation.

CON LA PARTECIPAZIONE DI

Posteitaliane

Poste Italiane represents the largest integrated and omnichannel service platform in Italy, a unique entity in the country for its size, recognizability, extensive reach, and the trust it holds with its customers. Active in the areas of logistics, mail and parcels, financial and insurance services, payment systems, telephony and the energy market, the Company has 119,000 employees, 12,800 Post Offices and more than 35 million customers.

From 2018 to 2023, the total value of direct, indirect and induced impacts on GDP was EUR 75.8 billion, EUR 44.1 billion the value of labour income and EUR 13 billion the tax revenue generated.

Between 2018 and 2023, Poste Italiane also contributed to the creation of 187,000 average jobs per year.

Poste Italiane is also a leader in the area of sustainability, focusing on ESG objectives and on eight specific pillars, achieving significant national and international goals and awards.

As a strategic pillar of the country, the Company contributes to the spread of digitalisation and innovation to the benefit of people, businesses and institutions by countering the progressive abandonment of the most peripheral territories and reducing the digital divide. With the same objective in mind, the Polis project, Casa dei Servizi di Cittadinanza Digitale (House of Digital Citizenship Services) was also launched, with the creation of a Single Public Administration Counter within the post offices of municipalities with up to 15,000 inhabitants.

ATENA

INFORMATICA

Improving relationships through our digital platforms
Atena Informatica has been operating for over 40 years in the IT market and specialises in the design and development of digital platforms aimed at managing and promoting welfare. ATENA's digital platforms connect people, local public bodies, the central public administration, companies and third sector and private social entities in order to implement integrated service networks and foster sharing and inclusion processes.

ATENA's main platform called ICARE (which takes up Don Milani's motto in its name to evoke the idea of 'taking care' of people, but also of the territory, the environment, work, and things) is now used by major Italian cities such as the City of Milan the City of Cagliari, the City of Genoa, the City of Turin, the City of Verona and allows to manage all the processes and services related to the social and social-health offer that the Municipalities provide on the territory, mapping the social needs and putting the 'Person' at the centre of each activity.

In addition to the management of welfare and social services, Atena's other digital platforms specialise in different targets:

- Corporate Welfare
- Territorial Healthcare
- Community Welfare
- Welfare for ETS
- Services for school inclusion
- Housing Policies

autostrade per l'Italia

Autostrade per l'Italia is one of Europe's leading concessionaires for the construction and management of toll motorways. With around 3,000 km of managed network in Italy, it connects 15 Italian regions and 60 provinces, ensuring an indispensable mobility service in the major metropolitan areas both directly and through 4 concessionary subsidiaries: Società Italiana per il Traforo del Monte Bianco SpA, Raccordo Autostradale Valle d'Aosta SpA, Società Autostradale Tirrenica SpA and Tangenziale di Napoli SpA.

The Autostrade per l'Italia Group also includes 8 companies that operate in ancillary services to the core motorway business and play a fundamental role in the Company's new course, which is being pursued through an intense programme of modernisation and expansion of the network under management, also implemented through a new corporate and management structure. The five companies for the development of the strategic lines of its core business are: Tecne, Amplia, Movyon, Elgea and Free to X. The Autostrade Group is becoming an integrated mobility operator at a European level and its commitment to increasingly sustainable mobility also involves investment in new technologies, including research and experimentation, for an increasingly smart future and an increasingly connected infrastructure. To achieve these goals, the Group has developed the Mercury Programme, working to build a large, unified and coordinated hub for technological innovation, in order to guarantee safer infrastructures and participate as a protagonist in the revolution that decarbonisation, digitalisation and new transport services are bringing to all mobility systems.

Easy Document Management

CSA, Italian leader in Document Management and Business Process Management, has been supporting the country's complex renewal path for over 25 years, improving data and information management efficiency, which are the basis of complex organizations' innovation and success in today's world.

Relying on its strong experience in information management, it contributes to the goals set by national, European and international institutions in the areas of digital transformation, process efficiency, productivity, sustainability and security, supporting more than 650 active clients and 7 operating offices, from Sicily to Piedmont.

CSA enables digital transition by designing and developing ICT technologies, information governance services, document archiving, process digitization and document dematerialization. The digital transition process is enabled by an in-house software house and an experimental operational core, pertaining to 'Artificial Intelligence and its ethical use in the processes of IT asset enhancement'.

CSA, guarantees through its advanced services, the valorisation of data and their interoperability between highly heterogeneous systems, to enable a bridge between an analogue country and the digital one we are moving towards.

The Estra Group, with more than 895,700 gas and electricity customers and total revenues of 1,212 million euros in 2023, is one of the leading operators in the energy sector in Italy, with a particularly prominent presence in Central Italy.

Estra operates, through subsidiaries and affiliates, with 851 employees, mainly in Tuscany, Umbria, Marche, Abruzzo, Molise, Campania, Calabria and Puglia. It is particularly active in the distribution and sale of natural gas and the sale of electricity, as well as in other areas of activity, including renewables and energy efficiency, telecommunications, and management of the integrated waste cycle.

It was founded in 2010 and Estra's four shareholders (Alia, Coingas, Intesa and Viva Energia), represent most of the municipalities in the provinces of Ancona, Arezzo, Florence, Grosseto, Macerata, Pistoia, Prato and Siena.

The Group has historically demonstrated a strong capacity for growth through business development policies throughout the country.

It has technical-industrial expertise and technological know-how in the sectors in which it operates. In particular in the natural gas distribution service in which it is engaged in the distribution of biogas and in the experimentation, with ENEA, of new mixtures of natural gas and hydrogen to be introduced into the distribution network.

iliad

iliad has revolutionized, since 2018, the phone network in Italy, making the fairness and transparency of its offers its strong suit. In just 6 years, the company has reached 11 million 251 thousand active users in mobile and landline, becoming leader in the mobile market by net user balance, for 24 consecutive quarters.

Spread across Italy with a proprietary network infrastructure, iliad covers 99.6 percent of the population with B2C mobile plans and - from 2023 - B2B with iliadbusiness, designed for companies and VAT Partners.

In 2022, iliad also entered the fixed-line market with its innovative router iliadbox, offering only fiber-to-the-home (FTTH) connectivity. Iliad's fiber coverage reaches nearly 15 million housing units and, in April 2024, was the first operator in Italy to offer a fiber connection with Wi-Fi 7 technology.

iliad aims to ensure fair and transparent plans, invest in the best technologies and promote the country's growth, by developing new set of skills, enabling everyday connectivity to fill economic and relational gaps.

iliad is present throughout Italy with 58 Flagship Stores and more than 6,000 selling points, and has been awarded for the third year in a row the best operator for Cost-Quality ratio by ITFQ.

Olidata S.p.A., headquartered in Rome and operating on the entire national and international territory, stands as a System Integrator active in the digital services sector operating in B2A and B2B markets offering complete solutions in the fields of cybersecurity, Big Data, artificial intelligence, software development and GIS and IoT system design.

Olidata is configured as a holding company, headed by several companies, each operating in its own business sector, but converging towards a common mission: to create a national hub that focuses on new technologies and new solutions completely made in Italy, to make the Group a true national champion, serving PA and Enterprise.

Thanks to our advanced IT skills and innovative tools, we offer excellent solutions to prepare the future today, becoming pioneers of the new digital era.

On April 3, 2023, Olidata SpA was readmitted to the Stock Exchange on the Euronext Milan Market.

Olidata Group companies are: Divergento Srl, I-CON Srl, I-CON Real Estate Srl, Biancone Automobili Srl, Sfera Defence Srl, Sferanet DWC LLC, Le Fonti Group Benefit Society.

ORACLE

Founded in Silicon Valley in 1977 from an intuition of Larry Ellison, co-founder and today CTO and Chairman of the company, Oracle is headquartered in Austin (Texas, USA) and employs more than 160,000 people worldwide, with a turnover of 53 billion dollars in the last fiscal year.

Starting with database technologies, an area in which it is still a leader, and thanks to numerous acquisitions and constant investment in R&D, Oracle today proposes an integrated technology offering that gives its corporate customers all the tools they need for digital transformation and helps them gain a competitive advantage, leveraging the cloud, Artificial Intelligence (AI) and the skilful use of data, the most important asset of any organisation. In fact, all enterprise applications (e.g. ERP, SCM, HCM, CX) and services, including database services, are now accessible 'as a Service' through the Oracle Cloud Infrastructure (OCI), a state-of-the-art, enterprise-grade cloud infrastructure designed with security as a founding principle.

Thanks to an increasingly wide and capillary network of cloud regions (public, hybrid, distributed, sovereign cloud for the EU, etc.) Oracle is also able to meet the needs of realities that for reasons of regulatory compliance or sovereignty must store data within national borders. In Italy, Oracle, led by Country Manager and A.D. Carlota Alvarez, has been present since 1993 with offices in Milan and Rome, has over 1,000 employees, and operates alongside a network of Business Partners who are able to add value to Oracle's offer.

paopa

PagoPA S.p.A. is a company wholly owned by the State, through the Ministry of Economy and Finance and under the supervision of the Prime Minister's Office.

The company's mission is to design and build infrastructures and technological solutions aimed at favouring the widespread diffusion of digital public services that are accessible to citizens and businesses in the simplest way possible.

The technological platforms created by PagoPA S.p.A. form the basis of a new relationship between the State and the citizen, which is more modern, sustainable and advantageous for people, administrations and the community.

This is possible thanks to the support of all public bodies, central and local, from which the complete digital transition of the Italian PA passes. A process that today is also supported by the National Recovery and Resilience Plan (PNRR) in which the Company is involved as the executor of some strategic projects that fall under the responsibility of the Department of Digital Transformation, within the scope of the Digital Italy 2026 Strategy.

Among the main products managed by the Company: the pagoPA platform for electronic payments to the PA, the IO app, a single point of access to digital public services on smartphones, and SEND - Servizio Notifiche Digitali (Digital Notification Service), which simplifies the management of communications with legal value.

ASSINTER ITALIA

Assinter Italia 'Associazione delle Società per l'Innovazione Tecnologia nelle Regioni' (Association of Companies for Technology Innovation in the Regions) is a non-profit association founded in Rome in 2008 that brings together 21 public ICT in-house companies for the digital transformation of regional and central PA. It constitutes a network between the companies of the Regions and Autonomous Provinces, of Local Authorities and of various Central Public Authorities that operate in the ICT sector for the Public Administration according to the 'in house providing' model.

The Association constitutes a technological, organisational and training hub at the service of its member companies, which involves all institutional, central, regional and local players, and collaborates with leading private ICT companies and with the most important Italian scientific, technological and academic centres. The aim is to develop an intense and synergic technological collaboration between in-house companies and public administrations in order to provide citizens and enterprises with high-value digital services. Assinter Italia therefore represents an indispensable ICT collaborative network to give an important boost to the country's digital transformation process and the realisation of the PNRR.

DigitalPlatforms
Your Digital Transformation Partner

DigitalPlatforms SpA ('DP') is an all-Italian group established in 2018 with the mission to provide end-to-end solutions and Internet of Things and Cyber technologies to Defence, Public Administration and major companies managing critical infrastructures in the energy/utilities, transport, telecommunications sectors.

The DP Group currently consists of seven companies and employs 460 resources, including engineers, programmers, IT consultants, laboratory technicians, researchers, operating from sixteen offices or factories, all based in Italy.

DP is a full liner player, present in all the elements needed to realise end-to-end IoT solutions. DP starts from the development, conception and production of new IoT devices, sensors and objects, passing through command and control systems and technologies, digital platforms, algorithms, data analytics, up to cybersecurity and artificial intelligence applied to infrastructures, devices and processes.

Each of the operating companies within the DP Group oversees one of the different elements of the IoT/Cyber solution value chain.

DP aims to ensure that the ongoing digital transformation leads to the creation of safe, secure, resilient and efficient infrastructures.

Possessing the main security authorisations, DP works with all major Italian Defence Integrators and platform providers and is a federated company of AIAD (Italian Association of Defence Companies). It is also a certified vendor with the Council of Europe and NATO.

Directa Plus is a leading Italian company in the production of graphene-based materials. Founded in 2005, it has developed a unique, patented process to create Graphene Plus (G+®), a pure, sustainable, chemical-free graphene. With 106 patents approved and 33 patents pending, the company is active in various sectors: environment, textiles, batteries, paints, composites and elastomers, working with international partners to provide increasingly innovative solutions containing G+®.

Grafysorber® is one of Directa Plus' most innovative products: a super expanded graphite-based material for environmental remediation. It can absorb oils and hydrocarbons up to 30 times its weight, offering a sustainable solution that allows both the absorbed material and the graphite to be recovered and regenerated, minimising environmental impact and reducing disposal costs.

In the textile sector, Directa Plus has revolutionised fabrics by introducing G+® to enhance their performance, improving thermal conductivity, antistaticity and antibacteriability. These properties make the fabrics ideal for sports, technical, luxury and protective clothing, combining comfort, innovation and superior performance.

NETGROUP

Netgroup S.p.A is an Italian multinational company specialised in Cybersecurity and IT solutions. Founded in 1994, for thirty years it has been working on the Digital Transformation of the most important public and private entities, through design, development and implementation of innovative technological solutions based on: AI, Big data, IoT, Cloud computing, AR/VR, Quantum computing and 5G-6G connectivity.

The company has a Security Operation Centre to better manage the perimeter and defence posture of its customers, also thanks to the use of anomaly detection tools based on AI and Machine learning, such as Horus, Netgroup's innovative solution to counter the increasingly pressing phenomenon of ransomware attacks.

The work at Netgroup is guided by the "Humans for" framework, which aims to build awareness and skills in people with respect to these issues. This commitment is realised through the activities of our Observatory - an internal structure that monitors, analyses and disseminates cybercrime trends - and through the MyForge Academy, a project created in 2015 with the aim of making up for the lack of highly specialised figures in these areas and which has been the pride of Netgroup over the years.

Soleto S.p.A. was founded in 1992 based on the business idea of its two founding partners, who were attuned to the needs of the electrical installation market, which required updates in line with regulations. The company has grown steadily, also becoming a solution for the telecommunications market.

New resources and solutions have been developed to meet the demands of an increasingly discerning and skilled clientele, gaining experience as a System Integrator and managing outsourced inbound/outbound technical support activities for telecom operators' customers.

Soleto S.p.A. boasts significant growth, investing and fostering its evolution in all high-tech sectors, continuously expanding into new markets such as Smart Cities, public lighting, energy efficiency, photovoltaic and wind power installations, and pollution management.

Since its founding, Soleto S.p.A. has consistently increased its business volume, strengthened its presence across Italy (with 9 offices from North to South), acquired the necessary resources (approximately 600 employees and over 1,500 subcontractors), and expanded its portfolio of offerings.
